COMPANY PROFILE

STRATEGIC LEGAL PARTNER FOR INSTITUTIONS, EXECUTIVES AND HIGH-GROWTH BUSINESSES.

WHO WE ARE

STRATEGIC ADVICE.
INDEPENDENT THINKING.
REAL IMPACT.

Leretha Legal is a boutique legal consultancy advising where legal complexity, commercial risk and consequential decisions intersect.

We provide strategic advice across corporate governance, regulatory compliance, complex disputes and alternative dispute resolution , with a particular focus on matters requiring sound judgement, discretion and decisive intervention.

Led by a seasoned legal practitioner and accredited mediator, we work with businesses, investment and institutional clients, organisations and professional practices where the legal issue extends beyond the immediate question of what the law permits.

Our role is to provide an independent view of the problem: identify the material risks, challenge assumptions, clarify the options and advise on the course of action most likely to achieve the client's objective.

We understand that legal risk cannot always be considered in isolation from commercial, operational, governance and reputational consequences.
That is why our advice is deliberately practical and outcome-focused.

We do not simply explain the law. We help clients make better decisions when the stakes are high.
